German Tell Their Side.
Berlin, Germany, Nov. 2.—Official reports from the western front show little change in the situation in Northern France and in Belgium, but events in Poland would appear to be shaping themselves for a renewal of the fighting between the main forces of Russia and the Austro-German allies.

The Austro-Hungarians and the Germans have completed their retirement to new positions previously selected by them. When the vanguards of the Russians who were following them came in touch with this new line, there were several encounters, in which the Russians were driven off.

Russian Flank Turned.
The Austro-Hungarians in southern Galicia have succeeded in crushing back the Russian left flank, which for several days has been making a desperate stand in carefully prepared positions between Turbina and Stry Sambar. The Russians employed the pause in the fighting after the Austrian retirement from this division to entrench themselves. They built a string of field fortifications, which were made more difficult of access by broken nature of the country. Consequently it was a hard task to eject them. The Austro-Hungarians claim a complete victory and report that the enemy was driven from all his positions.

The Austro-Hungarians also report further successes in Bukovina. They have retained their hold on Chervovitz against Russian attack, and they have defeated a Russian force to the north of Khotin.

Turkish Diplomat Given Passports.
Apparently Turkey is now definitely involved in the general war. What the allies describe as the "last chance" for Turkey to keep out of the struggle by disavowing responsibility for the acts of her Black sea fleet, has not been accepted, and the British government today handed his passport to the Turkish ambassador, following similar action by Russia. Meantime the Turkish fleet continues to act as aggressor. The Goeben and Breslau, German cruisers, acquired by Turkey, and four Turkish torpedo boats are reported to have returned to the coast of the Black sea in the Crimea. The presence of Turkish gunboats is reported at the entrance of the gulf of Suez and Turkish troops at an Arab village on the gulf.

Bulgaria Stands Neutral.
Bulgaria, faced with the bitter alternative of choosing her former protector, Russia, or fighting with her enemies, Greece and Serbia, if she joins in the war, has decided, according to a message from Sofia, to remain neutral. No word has been received regarding the attitude of Greece and Roumania, whose participation in the war is regarded as unlikely.

M., and follow the general course of the Southern Pacific line to Tucson, Ariz., there to again join the Borderland route. This road is mostly along the valleys between the mountains and has no serious engineering problems.

The association grew out of a letter addressed by the El Paso Herald to R. J. McCormack of San Simon, Sept. 17. This letter was given to the secretary of the San Simon Valley board of trade, who took the matter up with the towns on the Southern Pacific line between Lordsburg, N. M., and Tucson, Ariz., and in the Gila valley and Phoenix, Ariz. The organization was completed in less than 30 days after the letter was written at El Paso.

The organization consists of the following: J. H. Blanks, Bowie, president; Rev. E. Meyers, of Tucson, and one man from Lordsburg yet to be selected were named as a committee to go over the road, ascertain its present condition and to map out the best and most direct course. This committee is to make the trip over the road and report to the executive committee before November.

Many Offer Money.
Several men present at this meeting voluntarily offered to contribute from \$50 to \$250 to assist in the work, but the committee is not yet ready to call for funds to be used on the construction work. Time county was represented at the meeting by one of the board of supervisors who said that that county is ready to establish the road and put it in condition as soon as it is assured that Cochise county will build the road through its territory.

HUSBAND OF AMERICAN GIRL SEVERELY WOUNDED

The duchess of Croy, who was formerly Miss Nancy Leishman, daughter of the former American ambassador to Germany, has received news that her husband had been severely wounded on the battlefield in France, where he was fighting in the ranks of the German army, just as she recovered from childbirth. Ten days before a boy had been born to the duke and duchess and the joy caused by this event was saddened by the news of the duke's misfortune. The couple were married just a year ago. In face of the opposition to his marriage the duke resigned his commission in the German Imperial guards, but was restored into his command when the war broke out. Comparisons of dates showed that the baby was born on the very same day his father received the wound that will incapacitate him for the rest of the war.
